

With Labor Day in our rearview mirror and the unofficial close of summer, I would like to take the opportunity to thank all the truly hard-working garbage gentlemen and ladies in our profession. It takes one great team to make an operation a success, and we feel like we have one of the best at Meridian Waste. If you feel like one or more of our employees has gone above and beyond to service a customer, please don't hesitate to share a [Shout Out](#) or post a Google review. It's the positive feedback and morale boosters that keep these guys and gals truckin'!

As for new procedures we have for our National Accounts and Brokers, we re-invite you to use our website at [www.MeridianWaste.com/National-Accounts/](http://www.MeridianWaste.com/National-Accounts/) in order to check our new service areas as well as check on our mutual customers with service questions. We just completed a successful asset purchase with a few zip codes in St Louis that will allow us to service our commercial customers more efficiently. Remember, our website is a dynamic, ever-changing tool so if you see something you would like for us to include within its pages, let us know.
